PROFESSIONAL SUMMARY

Full Stack Developer with **nearly 2 years** of production experience building and deploying **TypeScript/Node.js/React** applications serving **10,000+ users**. Sole engineer on two end-to-end production platforms — a **multi-jurisdiction legal tech system** deployed on **AWS** and a **Stripe-powered creator marketplace** with **OAuth 2.0** and **RBAC**. Proficient in PostgreSQL, Prisma, REST API design, and AWS infrastructure (S3, RDS, EC2).

EDUCATION

- Thapar Institute of Engineering and Technology (TIET)** **Patiala, India**
B.E in Computer Science Engineering; CGPA: 7.73
July 2021 – July 2024
 - Courses: Data Structures & Algorithms, Operating Systems, Database Management Systems, OOP, Software Engineering

EXPERIENCE

- DigiMantra Labs** **Mohali, India**
Full Stack Developer
March 2025 – Present
 - Sole developer on a **10,000+ user** trademark management platform, owning the **full stack** from **PostgreSQL/Prisma** schema design to **React/Next.js (App Router)** frontend.
 - Reduced critical API response time from **~3 seconds to under 700ms** through query optimization, database indexing, and server-side performance tuning.
 - Engineered a **reusable, prop-driven React component architecture** adopted across all modules, improving code consistency and accelerating feature delivery.
 - Diagnosed and resolved **10+ production issues** via server log analysis and staged edge-case reproduction, maintaining a **zero-rollback deployment record**.
- DigiMantra Labs** **Mohali, India**
Full Stack Developer (Intern)
July 2024 – March 2025
 - Designed and built **10+ production REST APIs** spanning authentication, statistics, third-party integrations, and data aggregation across **10+ live applications**.
 - Integrated React frontends with backend REST APIs across multiple modules, implementing **error handling, loading states, and API response normalization**.
 - Refactored legacy frontend components and backend services, **eliminating code duplication** and improving long-term maintainability across client projects.

PROJECTS

- Multi-Jurisdiction Trademark Management Platform**
TypeScript · Node.js · Express.js · PostgreSQL · Prisma · React · Next.js · AWS (S3, RDS, EC2) · GitHub Actions
 - Designed a **multi-jurisdiction docket engine** (USPTO, EUIPO, WIPO) with rule-based validation and **automated renewal-deadline calculations** across differing legal timelines.
 - Engineered a **bulk-import pipeline** handling **20,000 rows/batch** from CSV/Excel with canonical column mapping, **constraint-based duplicate detection**, and row-level error reporting.
- Subscription-Based Digital RPG Content & Creator Marketplace**
React · TypeScript · Node.js · Express.js · PostgreSQL · Prisma · Stripe · JWT · OAuth 2.0 · Jest · GitHub Actions
 - Built a full-stack creator marketplace with **Stripe subscription billing**, automated **webhook-driven library provisioning** on payment confirmation, and end-to-end **creator payout workflows**.
 - Implemented **Google OAuth 2.0** authentication alongside **RBAC-secured** character management with ownership validation, secure sharing, and modular PostgreSQL schema design.
 - Wrote **Jest test suites** covering critical API routes and business logic; configured **GitHub Actions CI/CD** pipeline for automated testing and continuous deployment.

TECHNICAL PROFICIENCIES

- Languages:** TypeScript, JavaScript (ES6+)
- Frontend:** React.js, Next.js (App Router), HTML5, CSS3, Tailwind CSS, Shadcn UI
- State Management:** Redux, Zustand, Context API, React Query / TanStack Query
- Backend:** Node.js, Express.js, RESTful APIs
- ORM:** Prisma, Sequelize
- Databases:** PostgreSQL, MongoDB, MySQL
- Auth & Security:** JWT, OAuth 2.0 (Google, LinkedIn), RBAC, Input Validation
- Cloud:** AWS (S3, RDS, EC2), Vercel
- DevOps & Tools:** GitHub Actions (CI/CD), Git, GitHub, Bitbucket, Postman
- Testing:** Jest, API Testing

CERTIFICATIONS & ACHIEVEMENTS

- AWS Academy Graduate – Introduction to Cloud Semester 1 | Amazon Web Services | Nov 2022
- Google Analytics Certification | Google | Jul 2024
- HacKOn With Amazon – Season 3 (Participant) | Unstop | Dec 2023
